

L3B SUBTRACTING INTEGERS

Algebraic Addition

add the opposite

Subtracting is same as adding the opposite of the subtrahend

$$8 - \underline{4} = 8 + (-4)$$

subtrahend

$$12 - 14 = 12 + (-14)$$

$$4 - (-5) = 4 + (5)$$

$$= 9$$

$$-4 - 7 = -4 + (-7)$$

$$= -11$$

$$-3 - (-5) = -3 + (5)$$

$$\underline{5} - 3 = 2$$

$$+2$$
